

# Onboard Help

## MCP50 Driver Training

# Onboard Help

- You can access help for each of the MCP50 applications.
- You need to know how to:
  - Access the help menu
  - Navigate through the help topics
  - Locate What's New when your unit has been upgraded

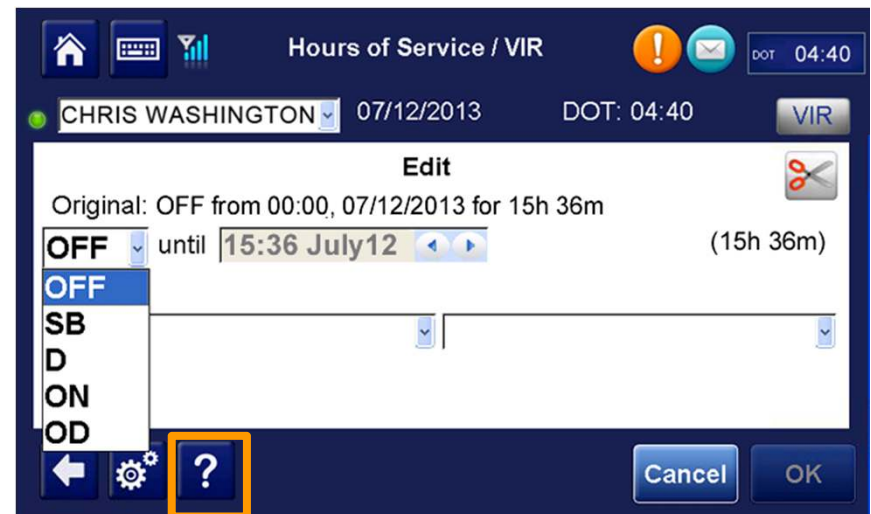

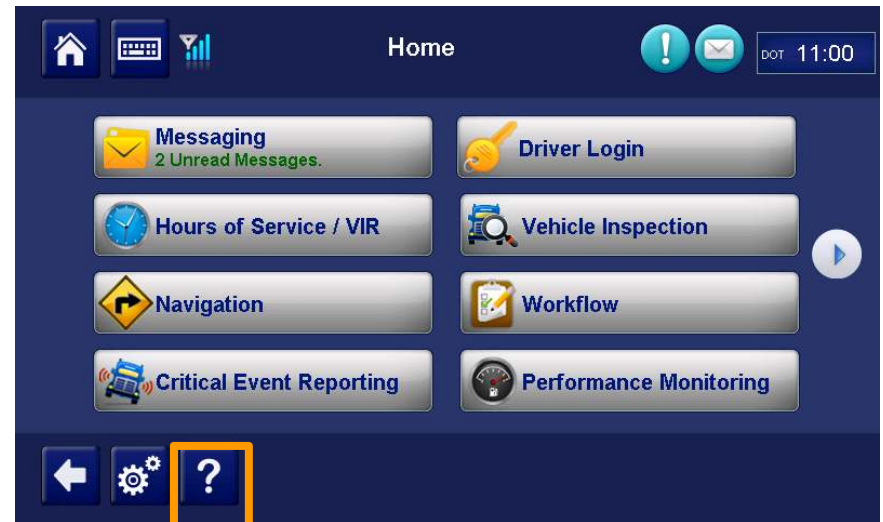

# Find Onboard Help

1. Tap the question mark.

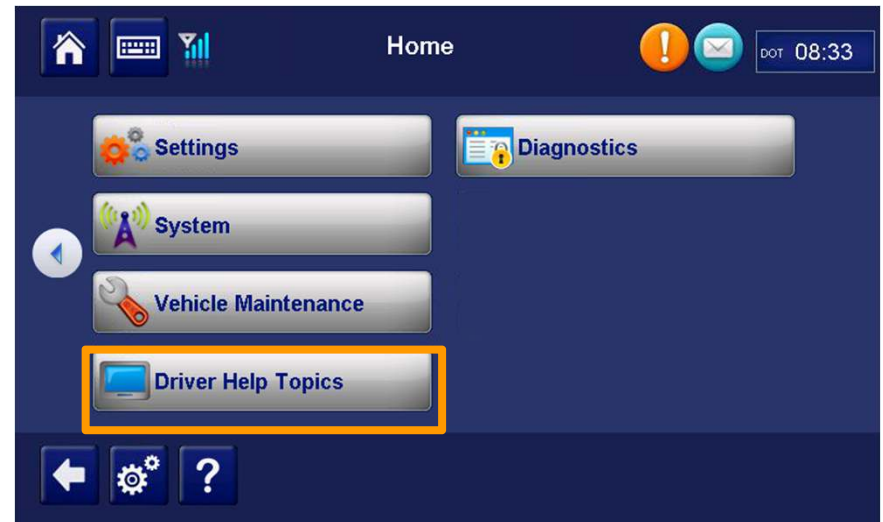

The MCP50 knows what application you are using and displays help topics for that application.

Example: In this case, the driver sees help about editing status.

# Find What's New in Onboard Help

1. To read about new features on your MCP50 after an upgrade, from the 2<sup>nd</sup> home screen, tap Driver Help Topics.

2. Tap What's New.

3. In the page that opens, tap each link that appears.
